Notes to Financial Statements

December 31, 2014

Note 1 - Summary of Significant Accounting Policies

Intercontinental Asset Management Group, Ltd. (the "Partnership") is a Texas limited partnership in which Intercontinental Asset Management Corporation (the "Company") is the general partner and has a 5% interest. The two shareholders of the Company are the limited partners and have 66.5% and 28.5% interests in the Partnership, respectively. The Partnership agreement provides for certain contributions of capital by the partners. Profits and losses of the Partnership will be allocated in proportion to the partnership percentages of the partners. The general partner will determine the aggregate amounts and the times any distributions will be made. The limited partners are not personally liable for any obligations of the Partnership. Offices of the Partnership are located in San Antonio, Texas.

The Partnership is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Partnership operates under SEC Rule 15c3-3(k)(2)(ii). The Partnership is engaged in the buying and selling of listed and over-the-counter stocks, retailing of mutual funds, buying and selling corporate, municipal, and government debt instruments, as well as options and futures. The Partnership's business is conducted with customers located worldwide.

The Partnership operates under a clearing agreement with Pershing LLC ("Pershing"), a Bank of New York Securities Group company, whereby Pershing clears transactions for the customers of the Partnership and carries the accounts of such customers on a fully-disclosed basis. The Partnership does not hold customer cash or securities in connection with such transactions.

Security transactions (and related commission revenue and expense) are recorded on a trade date basis.

Securities readily marketable are carried at market value and securities not readily marketable are carried at fair value as determined by management of the company. The increase or decrease in net unrealized appreciation or depreciation of securities is credited or charged to operations.

Compensated absences have not been accrued because the amount cannot be reasonably estimated.

Receivables from broker-dealers are generally collected in full in the month following their accrual. As such, management has not recorded an allowance for doubtful accounts on these receivables. Management records an allowance for bad debts based on a collectability review of specific accounts. Any receivables deemed uncollectible are written off against the allowance.

For purposes of reporting cash flows, the Partnership has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

The Partnership's net income is passed through to the partners and reported on their Federal income tax returns; therefore, no provision for Federal income taxes has been made in the accompanying financial statements.

Any potential interest and penalty associated with a tax contingency, should one arise, would be included as a component of income tax expense in the period in which the assessment arises.

INTERCONTINENTAL ASSET MANAGEMENT GROUP, LTD.

Notes to Financial Statements

December 31, 2014

Note 1 - Summary of Significant Accounting Policies, continued

The Partnership's federal and state income tax returns are subject to examination over various statutes of limitations generally ranging from three to five years.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

The Partnership uses various methods including market, income and cost approaches. Based on these approaches, the Partnership often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Partnership utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Partnership is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and Federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 - Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

For the year ended December 31, 2014, the application of valuation techniques applied to similar assets and liabilities has been consistent. The fair value of securities owned is deemed to be Level 1 investments. There were no transfers into or out of the Level 1, 2 and 3 categories in the fair value measurement hierarchy for the year ended December 31, 2014.

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers", which provides guidance for revenue recognition. This ASU's core principle is that Partnership will recognize revenue when it transfers promised goods or services to customers in an amount that reflects consideration to which the Partnership expects to be entitled in exchange for those goods and services. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. ASU No. 2014-09 allows for either full retrospective or modified retrospective adoption. The ASU will be effective commencing with Partnership's year ending December 31, 2017. The Partnership is currently assessing the potential impact of this ASU on its financial statement.

INTERCONTINENTAL ASSET MANAGEMENT GROUP, LTD.

Notes to Financial Statements

December 31, 2014

Note 2 - Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Partnership is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2014, the Partnership has net capital of approximately \$832,186 and net capital requirements of \$250,000. The Partnership's ratio of aggregated indebtedness to net capital was .60 to 1. The Securities and Exchange Commission permits a ratio of no greater than 15 to 1.

Capital distributions to partners can be made under a capital distribution policy approved by the Partnership's general partner. Periodic distributions approved by the Partnership's general partner are made to enable partners to pay federal income taxes on partnership profits, among other purposes.

Note 3 - Possession or Control Requirements

The Partnership does not have any possession or control of customer funds or securities. There were no material inadequacies in the procedures followed in adhering to the exemptive provisions of SEC Rule 15c3-3(k)(2)(ii) by not holding customer funds or safekeeping customer securities.

Note 4 - Pension Plans

The Partnership has a SEP IRA plan covering substantially all employees. The Partnership may contribute amounts as determined by the general partner. The Partnership has accrued \$61,704 as a contribution to the plan for the year ended December 31, 2014.

Note 5 - Related Party Transactions

The Partnership is a member of a group of affiliated companies under common control and has extensive transactions and relationships with members of the group. The existence of that control could create operating results and financial position significantly different than if the companies were autonomous. The Partnership, the Company, and other entities that are under common ownership share office space, certain employees, and fixed assets. Officers' salaries and other overhead expenses of approximately \$600,000 for the year ended December 31, 2014 were allocated by an affiliate under common ownership to the Partnership.

The Company has notes payable to partners for \$400,000 at 5%. The notes, including principal and accrued but unpaid interest shall be due and payable on or before November 26, 2018. Interest only on the unpaid principal balance of the Notes shall be due and payable as of November 25, 2014, and annually thereafter, until all amounts owed are paid in full.

The Partnership serves as a conduit for fee payments from Pershing to an affiliated investment advisor. Funds are received from Pershing and remitted to the affiliate monthly. For the year ended December 31, 2014, the Partnership received, and subsequently remitted \$1,350,737.

Note 6 - Concentration Risk

The Partnership during the year had concentration of credit risk arising from cash deposits with banks in excess of federally insured limits.

The Partnership is exposed to the credit risk of counter parties if they fail to perform according to the term of the contracts with such parties.

INTERCONTINENTAL ASSET MANAGEMENT GROUP, LTD.

Notes to Financial Statements

December 31, 2014

Note 7 - Commitments and Contingencies

Included in the Partnership's clearing agreement with its clearing broker-dealer, is an indemnification clause. This clause relates to instances where the Partnership's customers fail to settle security transactions. In the event this occurs, the Partnership will indemnify the clearing broker-dealer to the extent of the net loss on the unsettled trade. At December 31, 2014, management of the Partnership had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

Note 8 - Subsequent Events

In 2015, the Partnership will make distributions related to 2014 earnings of \$445,802 to the general partner and limited partners.
